

27th September 2006

INWEB is involved in the preparation of a NATO Science for Peace proposal entitled "Ecologically Sound and Sustainable Water Resources Management in the Transboundary Jordan River Basin" for which a planning grant has been awarded to cover the preparation and submission of a full project plan. INWEB coordinator will be making the project presentation to NATO in Brussels on 27th Sep 2006. <http://www.nato.int/science>
