

20th-22nd October 2005, Athens, Greece.

An international conference on New Water Culture of SE European countries will take place in Athens, Greece, from 20th-22nd October 2005. The conference will cover 14 different water related topics and is addressed primarily to chemical engineers but also other scientists, administrators and educators who are involved in research or projects on water resources management. Prof. J. Ganoulis will represent INWEB at this conference at a round table with the theme of Water in Environmental Education.
