

3rd-7th June 2002, Cannes, France

The 4th International Water Symposium was held in Cannes, France from 3-7th June, 2002. The themes of the meeting included water with regards to science, health, law and development, economy, decision makers and as a tool for peace. The symposium also provided the first opportunity for all water-related UNESCO Chair-holders, including INWEB, to meet and discuss future developments of the programme
