

23rd-24th November 2010, Rome, Italy

The 2010 FEMISE annual Conference was held from **23-24th of November** in **Rome, Italy**.

The theme was

“Structural Transformation and the Role of EU-Med Partnership”

•
The conference consisted of two plenary sessions where keynote speakers from the North and the South addressed the theme of the conference and shared their views with participants. The conference also included parallel sessions where members of the FEMISE network presented their recent research outputs in the areas of: Trade and integration, Migration and Labour markets, Finance and Banking, Firms behaviour and sustainable development, etc...

The FEMISE annual Conference is considered a platform where researchers from the network, partners, officials from Euromed institutions, the European Commission and distinguished keynote speakers meet to exchange their views on priority issues to the EU-Med region. Delegates from the UNESCO Chair INWEB were present at the conference.
