

The UNESCO Chair INWEB is pleased to announce that it has entered into an agreement with the esteemed German based publishing house WILEY-VCH for the publication of a selection of papers from the IV International Symposium on Water Resources Management, held in Thessaloniki from 15<sup>th</sup>-18<sup>th</sup> October 2008. Wiley-VCH specialises in books and journals in the scientific and business fields. The papers will be published in a book entitled “Transboundary Water Management – A Multidisciplinary Approach” and will be edited by J Ganoulis, A. Aureli and J. Fried. The aim is for the book to be a long-term reference book rather than simply a mirror image of the actual event in Thessaloniki. It will be published in 2011.
