

The Secretary of UNESCO Chair/INWEB Dr. Ch. Skoulikaris attended the 2nd UNESCO-IHP meeting on "Management and protection of coastal wetlands which was organised in UNESCO-Miollis, in Paris the 12 and 13 June 2014. The meeting was related to the coastal wetlands activity of the project "Management of Coastal Aquifers and Groundwater" that is under the MedPartnership – Strategic Partnership for the Mediterranean Sea Large Marine Ecosystem programme. The participants had the opportunity to present the results achieved so far and to discuss the next steps. One major next step was the mapping of coastal wetlands and INWEB was attributed to develop a Geo-information system of coastal wetlands in the Mediterranean.
