

19th-20th February 2007, Fez, Morocco. One of the work packages of this EU project aims to facilitate the transfer of knowledge to non-EU countries. Two pilot basins have been selected, namely the Litani River Authority (Lebanon) and the Agence de Bassin Hydrographique du Sebou (Morocco). UNESCO Chair INWEB's representative participated at this meeting, which was an opportunity to discuss the relevant information that can be included in the description of both basins, and develop a suitable template
