

UNESCO Chair/Network was responsible for the preparation of two maps that set forth the locations of the 82 coastal aquifers and the 26 wetlands characterized for the GEF funded UNEP/MAP “Strategic Partnership for the Mediterranean Sea large Marine Ecosystem” MedPartnership project:

1. [A regional map showing all aquifers and wetlands in a single view,](#)
2. [A sub-regional map showing details of the three sub-regions: The Adriatic Basin, the Levantine Basin and the Southern and Central Mediterranean Basin](#)

The final maps output can be retrieved by clicking on each of the aforementioned maps.
