

2000

A two page article on INWEB appeared in a special feature on "Water" in Greece's Sunday newspaper "To Bhma". The article gave background information on why the situation with regards to the water-environment in the Balkans is so critical, and mentioned the work done at the NATO advance research workshop in October 1999. The reasons for forming INWEB were given, together with a brief description of INWEB's goals and achievements to date.
