

16th-22nd March 2009, Istanbul, Turkey

The World Water Forum is the main water-related event in the world, aimed at putting water firmly on the international agenda. A stepping stone towards global collaboration on water problems, the Forum offers the water community and policy-and-decision-makers from all over the world the unique opportunity to come together to create links, debate and attempts to find solutions to achieve water security. It is organised every three year by the World Water Council, in collaboration with the host country.
